Herbacin Brand Store Frankfurt, Erfurt and Eisenach, Germany

Herbacin

One of Germany's oldest herbal personal care brands – heritage and tradition combined with ground-breaking trends – resulted in a product line that has stood the test of time. This German family-run company began as an idea when, in 1900, two pharmacists living in the idyllic area of Thuringia had a brilliant thought: *“to create a new personal care formula inspired from the heart of nature.”* Little did they know that this would result in a global beauty success story.

Pharmacists Otto and Hedwig König officially founded Herbacin in Eisenach, Germany in 1905 and very early on created a distinctive brand image that is still the foundation of Herbacin today. It pays homage to the close proximity of deep green forests and flowering meadows where the popular brand had its roots.

Long before natural cosmetics became popular, Herbacin products were known and sought after for their quality and efficacy. Now the brand has grown to become a complete herbal face, body and hair care range, with all the products researched, developed, and produced at Herbacin's own production facilities and research labs in Germany.

“Made In Germany” Still Stands For Quality

And for good reason. We take carefully selected ingredients of the highest quality. Corporate management, production and delivery of the finished products are all brought together at our headquarters based in Wutha-Farnroda, located at the edge of the beautiful Thuringian Forest. In our Herbacin corporate stores in Frankfurt, Erfurt and Eisenach you will find not only our Herbacin kamille heritage products, but the whole variety of our Herbacin range. We look forward to welcoming you.

At Herbacin we strive for perfect harmony and give priority to only the best, most skin-compatible, effective, carefully selected plant-based ingredients for the manufacture of our cosmetic products.

We do not use raw materials derived from animals. Vegetarians and vegans can use our products, too.

Herbacin is strictly opposed to the animal testing now banned for cosmetics in the EU. Our cosmetics are tested for compatibility exclusively on voluntary test subjects at independent testing institutes.

We want to make not only your skin and hair look and feel beautiful, but also our environment. Therefore, we try to convey our products as eco-friendly and efficient as possible. The same goes for all of our packaging, which is 100% recyclable.

We produce locally, in the heart of Germany. For our high-quality products, we use extracts from fruits, spices and herbs, essential oils and plant-based butters that primarily stem from controlled organic cultivation.

We use the latest digital technology, as we believe in a simple, convenient and completely safe online shopping experience.

Herbacin kamille – Traditional Care All-Around Skin Protection – All Day, Every Day.

One of our globally most popular, gentle-acting skin care lines is also our first – Herbacin kamille. It originated from its natural roots in the nature reserve near Hörsel in Thuringia and took its inspiration not only from the deep green forests and flowering meadows, but Herbacin's own biodynamic herb cultivation. This close connection to nature culminated in the familiar and distinct Herbacin kamille brand image. Herbacin kamille products, created especially for busy modern living, have become the perfect all-around everyday protection for skin, hands and nails for both women and men around the world.

Foot Care Step Out In Style.... Revitalizing Treatments For Legs And Feet.

Throughout our lives we put about 270 million steps behind us – i.e. about 160,000 kilometers. That means we could have circled the globe four times. Our poor feet take a beating every day, no matter what they are wearing! Taking care of your feet and legs has never been easier. Our comprehensive Herbacin Foot Care program features three perfectly coordinated natural products with advanced formulations to care for and pamper your feet and legs every day.

Relaxation for Legs

30ml tube | 200ml tube
Herbacin Foot Care Leg Lotion offers instant stress relief and relaxation for tired legs. Natural avocado and almond oil combine with camomile blossom extract to hydrate, soothe and nourish the sensitive skin of your legs. To help improve circulation, the active ingredients of red vine leaves and horse chestnut strengthen the veins and enhance the blood flow in your legs. Carnosine and Vitamin E help bind free radicals to reinforce the cell membrane. Additionally, carnosine reduces the reaction between sugar molecules, collagen and elastin fibers to improve skin elasticity and delay its aging.

- camomile from controlled organic farming
- 100% paraben and mineral oil free
- without PEG's
- no animal derived ingredients
- free of artificial colors
- also recommended for diabetics

At-Home Foot Massage

30ml tube | 100ml tube
Herbacin Foot Care Cream with camomile and urea provides ultimate moisturizing for sensitive and highly stressed feet. Natural oils of camomile extract, allantoin and panthenol soothe and regenerate the skin. Carnosine and Vitamin E bind free radicals to strengthen the cell membrane. Carnosine reduces the reaction between sugar molecules, collagen and elastin fibers, enhancing your skin's elasticity and delaying its aging. Massaged daily into clean, dry skin, Herbacin Foot Care Cream also prevents cornea, calluses and cracks, keeping feet looking and feeling their best.

Cool It

30ml tube | 100ml tube
Herbacin Foot Care Cooling Gel is the perfect way to cool down hot feet and tired, heavy legs. With its cooling care complex of menthol, menthyl lactate and camphor, it not only ensures long-lasting, delightfully invigorating freshness, but its active ingredients of red vine leaves and horse chestnuts simultaneously strengthen and tone the veins, enhancing the blood flow in your legs. Our hydrating Herbacin Cooling Gel absorbs quickly without leaving a sticky film on your skin, while leaving your feet and legs feeling refreshed and revived.

Face Care Why Should Your Skin Age Earlier Than You?

The Herbacin Face Care range was developed specifically for today's woman – multi-faceted with different lifestyles, but one thing in common – looking for skin care products that will help prevent premature skin aging. Unlike men, women produce estrogens in their skin that help keep it plumped and supple. The skin-aging process begins in our mid-twenties, and in women, it is accelerated with decreasing estrogen levels, most notably during menopause. The effect is that skin retains less and less moisture, making it dryer and less smooth. It loses its elasticity and wrinkles become deeper and more visible. Our luxurious Herbacin Face Care series was designed to naturally and gently counteract the effects of skin aging. Beautiful skin begins with the best ingredients and a commitment to a daily regime, and it is never too early to begin.

The aluminum-free Camouflage care deodorant with bamboo microfibers gently reduces sweating while the triple action complex protects against unpleasant odor. Extracts of witch hazel, birch and sage naturally support its deodorizing effect. Skin-soothing allantoin and panthenol help relieve skin irritations under the armpits.

Herbal Facial Care Natural Anti-Aging System With The Healing Powers Of Calendula.

Calendula or marigold – appreciated not only for culinary use and gardening – is a traditional medicinal plant whose antibacterial and regenerative effect has also been well recognized by modern science by now. Cultivated mainly in Germany and the Netherlands, in 2009, it was even voted Medicinal Herb of The Year. Our Herbacin med care products for face, neck and décolleté are based on the yellow blossoming miracle and its valuable antioxidants. A natural anti-aging system specifically designed for ultra sensitive skin prone to inflammation.

Herbal Hair Care Silicone Free Hair Pampering Program With Precious Natural Extracts.

Hairdressers and stylists already know the secret to great hair: Stay away from silicone, i.e. those hair care products that straighten your hair artificially and rob the scalp of its natural health. Instead, keep your hair at its all-time best with our hair care collection of gentle, targeted treatments with natural herbal extracts and precious plant-based raw materials. All are designed to nourish the scalp and hair while protecting it against the damaging effects of environmental stresses. Always 100% silicone free, our products offer sustainable hair care with natural ingredients to keep your hair irresistibly shiny and beautifully healthy.

Pump Up The Volume

250ml bottle | **Herbacin Herbal Volume Shampoo** for fine and normal hair gives it more sheen, lift and volume, without making it feel heavy. The natural extracts of mango, ginkgo and camomile have a cleansing and soothing effect on the scalp while promoting blood circulation. The result: Sleeker hair with a heavenly new luster – all day long.

Balancing Act

250ml bottle | **Herbacin Herbal Balance Shampoo** for oily hair gets to the root of the problem – overproduction by the sebaceous glands. By balancing the function of these oil-secreting glands, this shampoo reestablishes a healthy pH balance of the scalp. Natural extracts of ginger, lemon balm and birch act as soothing and antibacterial agents, without drying the scalp, while simultaneously preventing rapid regreasing.

Damage Control

250ml bottle | **Herbacin Herbal Care Shampoo** is perfect for damaged and over-processed hair. Hard on your hair? Excessive coloring, blow-drying, brushing and environmental influences can leave hair dry, brittle and prone to split ends. This special herbal care shampoo with natural extracts of bamboo, melon and hops moisturizes and regenerates your hair, giving it a healthy feel and lustrous shine.

Ultimate Conditioning

250ml bottle | **Herbacin Herbal Conditioner** with provitamin B5 for all hair types is your ultimate hair care product for beautiful hair. It not only smoothes the cuticle layer of the hair, making it easy to comb, but it also eliminates static when blow-drying. Natural extracts of lotus, melon and aloe vera provide intense moisture, protecting hair from drying out while adding more volume. Additionally, provitamin B5 strengthens your hair from the roots to the tips to give it a simply gorgeous look and feel.

- optimum care for damaged hair
- puts an end to split ends
- with soothing natural extracts
- paraben and silicone free
- provides long-term support
- gentle and moisturizing

Herbal Shower Gels

Express Hydration For Skin And Hair With Natural Anti-Stress Factor.

Herbacin Herbal Shower Gels are formulated to gently cleanse even the most sensitive skin and damaged hair – even when you are in a hurry. Stress-free, non-alkaline surfactants and moisturizing botanical ingredients stabilize the acid mantle of the skin while a mild nourishing complex of precious herbal extracts simultaneously strengthens its natural defenses. Your skin will not only feel wonderfully smooth and relaxed, but your hair will also be given valuable protection. With a special nourishing active ingredient of guar beans, making hair ultra supple and easy to style, Herbacin Shower Gels are a perfect no-fuss way to begin a busy day.

Uplifting

Phase 1: Intensive cleansing

Bye bye, dandruff!

300ml bottle | The shampoo removes any existing dandruff, effectively loosens excess sebum, and does not encourage the increased production of new grease. Proven over many decades, even after just a short period of using WUTAPOON, Herbacin's anti-dandruff active complex makes irritating dandruff and unpleasant itching disappear. The nourishing shampoo provides the hair with volume, a healthy shine, and supports the regeneration of the scalp in a naturally mild way.

Phase 2: Anti-Dandruff Booster

Freshness boost included.

300ml bottle | The special hair tonic is the perfect complement after washing the hair with WUTAPOON Anti-Dandruff Shampoo. Proven over many decades, Herbacin's anti-dandruff active complex eliminates irritating dandruff for the long-term after just a short period of use. Peppermint menthol stops itching with a refreshing coolness. Panthenol and allantoin soothe the irritated scalp and ease the tiniest wounds in an instant.

In clinically controlled trials, all participants confirmed the effectiveness and general improvement of dandruff-related symptoms through the use of WUTAPOON Combo System anti-dandruff hair care.

- free of silicone compounds
